IT Materic Touch è un'innovativa tecnologia applicata alle finiture Naturale e Honed, che conferisce alle superfici una tridimensionalità realistica. Essa esalta ogni venatura e sfumatura della texture, imprimendola sulla superficie e donando un effetto materico percepibile sia al tatto che alla vista.

EN Materic Touch is an innovative technology applied to the Natural and Honed finishes, which imparts a realistic three-dimensional effect to the surfaces. It enhances every vein and shade of the texture, embossing it onto the surface and creating a tactile and visual material effect.
